Coaching solutions

BE YOU — at your best — YOUR WAY

Whatever your personal goal, **partnering with a personal coach can set you on the path to success.**

We offer a variety of coaching programs to help you be your best—at no cost to you. Our coaching programs include:

- **Personal health coaching** through Vida Health to better your overall wellbeing or strengthen your resilience.
- **One-on-one expert coaching and tips for neurodivergent employees** on how to best leverage your unique strengths and address any workplace challenges. Plus, coaching to help managers and colleagues better support and communicate with neurodivergent teammates.
- **Financial Wellbeing Pros** who get to know you and your unique financial situation and help you take control of your finances. Your Pro can provide expert guidance and tips to help you plan for your financial future, like saving for a home, debt management, investing basics, and much more.

Medical second opinions

Expert advice FROM **world-renowned** doctors

Peace of mind matters. If you or a loved one is facing a medical decision, you'll have **access to a free, independent medical opinion**, so you can feel confident moving forward.

We also offer support to our transgender and nonbinary employees through a dedicated physician manager who will answer questions and provide support in areas like gender-affirmation surgery, hormone replacement therapy, and ongoing physical and mental health needs.

Spouses/domestic partners, children, parents, and in-laws can use these services too—wherever they live in the world.

Women's health

UNIQUELY PERSONAL health support

We offer a supportive environment, where you don't have to face challenges alone. Around 33% of women in the U.S. report moderate to severe difficulties at work due to menopausal symptoms. If you or your spouse/domestic partner are experiencing symptoms, you're not alone. We offer **comprehensive and personal coaching and support**.

Because being informed about your health matters, you can also **request genetic testing** to identify changes in the genes associated with developing breast and/or ovarian cancer. And, get your **first in-network mammogram of the year regardless of age**—all at no cost to you.

Eligibility for these programs is based on medical plan enrollment.

Time2Give

PAID DAYS TO FOLLOW YOUR HEART

If you love giving back, you'll fit right in at Cisco. We care about our communities, the world, and each other. In fact, **since 2020, Cisco employees volunteered more than 1.3 million hours for causes they're passionate about.** We also committed to making meaningful change with **848 million people positively impacted** through our social impact grants and signature programs.

Each year, you can take up to 10 extra paid days off to help a cause that matters to you—whether it's a nonprofit, charitable organization, or school.
