PROFESSIONAL EXPERIENCE

Amazon Web Services (AWS) | Principal, AI Products & Platforms

2024-Present

San Francisco, CA

- Led strategy and delivery for an agentic GenAI shopping copilot across 12 workstreams, 6 organizations, and 3 time zones spanning engineering, science, legal, trust & safety, GTM, localization, finance, and executives.
- Built the GenAI investment case using bottom-up market sizing, attach-rate and adoption scenarios, tornado sensitivity analysis, and a \$100M+ GMV model; secured \$5M in milestone-gated funding against competing bets.
- Hardened RAG, tuned prompts and model selection on Amazon Bedrock, and deployed Bedrock Guardrails, evals, and human-in-the-loop controls; drove 25% adoption, 70% brand favorability, 2.8% hallucinations, and +15% session depth.
- Architected sovereign-cloud GTM for regulated banking, translating data-sovereignty and resiliency into reference architectures and compliance-as-code; unlocked \$20M+ commitments, built a \$122M pipeline, and cut deployment 6 months→2 hours.

Rakuten International | MBA Intern, Corporate Development & Growth

2023

Tokyo, Japan

- Won executive-committee approval for a \$50M capital-redeployment thesis shifting investment from burn-heavy B2C super-apps to B2B cross-border payments after portfolio-wide ROIC and cohort-economics analysis.
- Stress-tested a \$50M DTC expansion with a 10,000-iteration Monte Carlo model of CAC, churn, payback, and NPV; 68% negative-NPV downside paths supported a pivot to a B2B2C corporate-partnership model.
- Pivot improved LTV:CAC 0.8→4.5, D30 retention 34%→67%, CAC \$42→\$8.50, and payback 18→4 months, avoiding an estimated \$20M loss; validated performance with cohort analytics, SQL, and geo-lift testing.

Microsoft | Senior Manager, Business Operations & Programs

2020-2022

Redmond, WA

- Built a \$12M marketing-operations and partner-capital engine using Random Forest propensity scoring, W-shaped attribution, real-time budget traffic-shaping, API governance, and Market Development Funds (MDF).
- Reallocated capital using live yield and pipeline data, generating \$50M incremental GMV at 4.1x ROI, raising funded-partner conversion 5%→24%, and compressing partner sales cycles to 85 days.
- Translated regulated-financial-services requirements into cloud and AI architecture, pivoting fully homomorphic encryption to Azure Confidential Computing to cut inference latency 14s→220ms, with AI Content Safety guardrails and bias testing.

The D. E. Shaw Group | Vice President, Data & Financial Platforms

2016-2020

New York, NY & Hyderabad, India

- Led a ~\$10M real-time risk and capital-efficiency platform across 15+ engineers and trading, quant, compliance, IT, and finance stakeholders using Rust, Apache Kafka, Apache Flink, FPGA, and Basel III controls.
- Cut risk latency 90ms→4.2ms, unlocked \$85M regulatory capital, reduced false positives 15%→1.8% (~\$400K/month savings), and scaled throughput 1M→5.4M messages/sec with zero dropped packets through market crashes.
- Originated and closed a \$500M institutional mandate during Brexit uncertainty, owning targeting, technical diligence, relationship management, investment-committee negotiation, and alignment across finance, quants, IT, board, legal, and trading.

McKinsey & Company | Associate, Strategy & Transformation

2014-2016

London, UK

- Designed a maker-taker tiered fee structure and liquidity flywheel that grew institutional trading volume \$215B→\$371B and recurring revenue \$45M→\$213M using elasticity, take-rate, contribution-margin, and executive decision models.
- Enabled a \$1.1B APAC market entry by pairing data-platform modernization with regulatory engineering, translating Vietnam Decree 53 localization and Indonesia OJK constraints into architecture and GTM choices for CFO, CIO, and CMO stakeholders.
- Designed elasticity-based retail pricing across Key Value Items and long-tail portfolios with Agile Pods, unlocking \$50M revenue and cutting speed-to-market 6 weeks→<1 week while securing executive buy-in through hindcasting and change management.

EDUCATION

University of Michigan, Stephen M. Ross School of Business | Master of Business Administration (MBA) - Strategy, Technology & Operations | *Ann Arbor, MI* | 2022-2024

The London School of Economics and Political Science | Executive Coursework - Economics, Markets & Public Policy | *London, UK* | 2024

Indian Institute of Technology | Bachelor of Technology (B.Tech) - Computer Science & Engineering | 2010-2014
