

What do we do?

We acquire and operate Homeowners' Association Management companies (read: the folks who make sure your neighbors pay their HOA dues, hire the landscaper, and keep your condo building beautiful and structurally sound). We have acquired five companies in the last twelve months, and plan on acquiring three more over the next three months.

What would you do?

We're looking for a Chief of Staff intern who can support our executive team with project management and execution of strategic initiatives across our Member Companies. This role is perfect for someone who enjoys both supporting key leaders and being hands-on in running a rapidly scaling company. This is a remote position with the possibility of time on-site at our businesses in Chicago, Houston, and/or the Washington, DC area. Specifically, you will:

- Collaborate with our leadership team on special projects involving our Member Companies (current examples include: culture/engagement surveying, designing a leadership development program, templating our budget process, and managing an ERP rollout)
- Support the post-acquisition integration process for new Member Companies
- Participate in pre-acquisition due diligence work for future Member Companies
- Recruit, interview, and recommend for hire a full-time Chief of Staff
- Join our weekly leadership team meetings and broadly participate in managing the business

Qualifications:

- A bachelor's degree required, preferably in a business discipline. Current MBA students are encouraged to apply
- Minimum 5+ years of experience obtained through increasingly responsible positions within an operations function

What you have:

- **Proven track record** - Prior success in supporting operations, planning and leading strategic initiatives, and supporting cross-functional collaboration
- **Excellent communication skills** - you effectively inspire and energize both reports who you mentor and leaders who you support. You create clarity out of complexity
- **Continuous improvement mindset** - You know things can be better, have the analytical chops to figure out how, and can rally cross-functional teams around making it happen
- **A team-building mentality** - You are committed to working as a member of the team and building a successful organization. You can quickly gain the trust, confidence, and respect of colleagues, customers, and other stakeholders
- **An entrepreneurial spirit** - You are comfortable in a dynamic work environment and possess a proven ability to create operational efficiencies and streamline processes without direct oversight. You're a self-starter and thrive in an evolving, changing environment. Experience in an entrepreneurial workplace preferred
