

What you can expect

Stage 1 - **Initial Call** with Talent Partner (30 mins)

After the initial screening process, you may be invited to attend a video call with the Talent Partner leading the process. During the call, we'll ask you questions relating to your experience and situational questions that relate to the role you've applied for, and we'll provide you with more information about the role, the team, and the reason for hiring. You'll also have the opportunity to ask any questions you'd like to know about the role or UpGuard.

Stage 2 - **Technical** Interview (60 mins)

If we feel you have the appropriate skills and experience based on the initial call, you'll be invited to attend a 60-minute Technical Interview with the Hiring Manager or another senior member of the team. This is where we will dive into the technical requirements of the role and ask you more specific questions to learn about how you have approached certain situations in your prior roles.

Stage 3 - **Assignment** & Review (5 days + 60 min review call)

If you are invited to the assignment stage of our interview process, it's a sign that we're serious about hiring you. The assignment allows you to show off your skills and put your best foot (or work!) forward. During the assignment stage, we are not looking for the right answer or for you to produce a thesis; rather, we're looking to learn how you would approach situations that you will likely encounter in your role at UpGuard.

We may invite you to a review call to talk us through your assignment, or we will review it offline and provide feedback to you directly.

Stage 4 - **Culture** Interview (45 mins)

Now things are getting really serious. Our Culture panel interview is an opportunity for you to meet the UpGuardians you'll be working with and for them to meet you. The purpose of this step is to give you a glimpse into what life at UpGuard is like and for our team to participate in the selection of which humans we invite to join our team. Given that we spend around 1,972 hours a year at work, in addition to having the right skills & experience, it's important that we enjoy the company of those we choose to work with.

Stage 5 - **CEO** Interview

The final step before issuing an offer and conducting background checks is for you to meet with Mike, our CEO, and Co-Founder, or another member of our SteerCo (Executive team). This step of our process is all about you. The kind of person you are, the goals you set for yourself, and how you would fit within UpGuard. We are looking for good humans to join us in solving really interesting problems, so we want to see the real you!

Letter of **Offer** & Background Checks
