

Our global hiring process

2024

The hiring process at Wellhub is an important part of our culture, which is based on transparency and diversity.

We believe in providing candidates with full visibility of every step, as well as helpful information and resources!

We are committed to hiring **exceptional talent from diverse backgrounds**. Combining our diverse experiences, cultures, and perspectives will help us achieve our goal of making every company a wellness company.

01

Submit your application

Once you complete the online application, our Talent Acquisition team review it. During this phase, the recruiters will check your **resume** and other relevant profiles such as your **LinkedIn** to assess the fit with the position and requirements.

Screening

In some cases, a recruiter might contact you early to get additional information on your background, career goals, and your motivation for joining Wellhub.

02

HR Interview

This chat will be an **in-depth interview** via video conference or phone call.

In order to get to know you better and assess if you align with our culture and values, we will ask you for specifics about your professional experiences. We will also talk about why you want to work for Wellhub and the department you applied for.

At the end, we will be excited to answer any questions you have and tell you more about life at Wellhub!

03

Leadership Interviews (+case study when applicable)

You will interview with the Hiring Manager and other leaders relevant to the department you are applying to join. Leader Interviews are offered via video conference or on-site depending on the position.

We will explore your **technical skills** and ask you to highlight relevant **examples** from your career in which you demonstrated those skills. For example: an innovative project you have worked on or a conflict situation you have dealt with.

Tips

You can use the STAR methodology to answer interview questions. For each example, set the scene, describe the purpose, explain what you did and how you did it, and share the outcome!

STAR Method:

S - Situation: describe the situation

T - Task: what were your tasks and responsibilities?

A - Action: how did you accomplish the tasks?

R - Results: what were the results of your actions?

Case

For specific roles only, you may be asked to deliver a case study.

You will be given a **real job problem or scenario** to work through and solve. The case will be given to you in writing and you will be asked to complete it within a specific period. It can also include a presentation in which you will be asked to walk through your assumptions, strategies, and steps you've used to solve the case.

04

Reference Check

For certain roles, we may ask you to provide references from former managers or colleagues.

Reference checks are used to **verify your experience and credentials**, as well to provide further insight into your **abilities, how you work with others , and how you impact** the work culture around you.

All information obtained during this phase is confidential and restricted for the sole use of our team. Opinions shared from your references will be discussed with the interviewers and taken into account for your final evaluation.

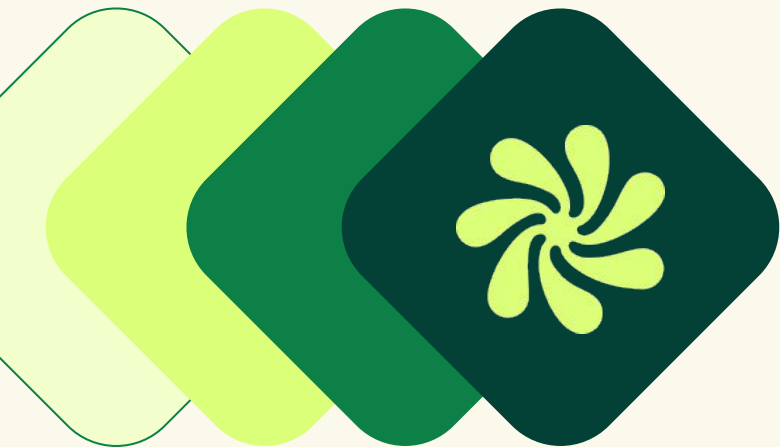

Join the team!

Congratulations! You will receive an offer letter outlining the new job terms, benefits, and other important information. Review the proposal and respond to the hiring team as instructed. We will remain available to answer any remaining questions.

Let's bring wellbeing to every company and every employee, every day - together!

Important

Additional info and recommendations

- Regularly visit our [careers page](#) to keep an eye on our current and future job openings.
- We recommend that you **update your resume** and carefully **read the requirements** listed in our job descriptions, as each position is unique.
- If you know someone working at Wellhub, don't hesitate to ask for a **referral**!

Thank you :)
