BEFORE YOUR INTERVIEW

You will receive a final schedule 24-48 hours before your interview day with more specific information, including your interviewers name and zoom link.

AFTER YOUR INTERVIEW

Your recruiter will contact you within 2-3 business days after your interview to deliver results – yes, that quick! If results are expected any longer than our usual time frame, your recruiter will reach out to let you know!

VIRTUAL INTERVIEW

Virtual interviews allow our interviewers to get to know you using video and web- conferencing services, without having to be physically in the same room as you. Our virtual interviewing system, Zoom, offers various functions that help support our interviews including:

- **Share Screen:** Allows users to share applications from their desktop or website (i.e. product design, spreadsheet, chart, etc.)
- **Chat:** Ability to communicate real-time with your interviewer on your desktop
- **Whiteboard:** Draw and type freely to show work when problem solving with your interviewer ([click here](#) for instructions on how to use this feature)

Whether you're participating in an in-person or virtual interview our goal is the same — to get to know you better. Prepare for your interviews as you would for an in-person and make sure you arrive early to your virtual “room.” Your interviewer will guide you through the process like any other interview.
