LEARNING OBJECTIVES

- Create a LAMP list
- Answer “tell me about yourself” effectively
- Answer “why this organization / role / sector?” effectively

STRUCTURE OF TODAY

- Create a LAMP list (75 min)
- Dinner break (15 min)
- Learn to answer and practice the “The Big 4” (75 min)
- Q&A (15 min)

WHAT IS A LAMP LIST?

LAMP LIST

- LAMP List makes you The Bachelor of your search in 70 min

LIST COLUMN = 40 POSSIBILITIES IN 40 MINUTES

Four brainstorm techniques x 10 min each:

- 1) Dream sector
- 2) Alumni
- 3) Indeed
- 4) Trending

Do not make multiple LAMP lists

For best results, pick up to 3 sectors and involve AI (e.g., “Suggest 10 US-based companies like _____”)

LAMP IMPLEMENTATION RECAP

1. Target no more than three sectors for your off-campus search so past informationals inform future ones
2. Include unknown employers in desired sectors (you may just not have heard of them yet)
3. Make a good-enough LAMP list fast (not a perfect* one slowly), and plan to recreate 1-2x per search as you learn

Result: LAMP lists become faster to create (and easier to leave behind) each time you make one

DINNER BREAK

LEARNING OBJECTIVES

- Create a LAMP list
- Answer “tell me about yourself” effectively
- Answer “why this organization / role / sector?” effectively

WHAT DO I EXPECT?

**Prepare a great
resume!**

**Research
companies /
roles!**

Sell yourself!

**Nail the first 90
days!**

**Negotiate your
offer!**

**Customized cover
letters!**

**Tell impactful
interview
stories!**

This is one set of effective, science-based recipes

SOME QUESTIONS MATTER MORE THAN OTHERS

Time (min)	Cumulative % of decisions made in interview
0 to 1	6%
1 to 5	38%
5 to 15	77%
Over 15	100%

All interview questions are **not** created equal!

PART II:
TELL ME ABOUT YOURSELF
(TMAY)

THOUGHT EXERCISE: A SPECIAL GUEST...

HOW DID THAT GO?

WHY DO INTERVIEWERS ASK TMAY?

- Have you heard TMAY answered poorly?
 - Do we ever give feedback?
 - ...so how do we know we do it well?
- TMAY is a rapport-builder; leave “sell yourself” to later questions

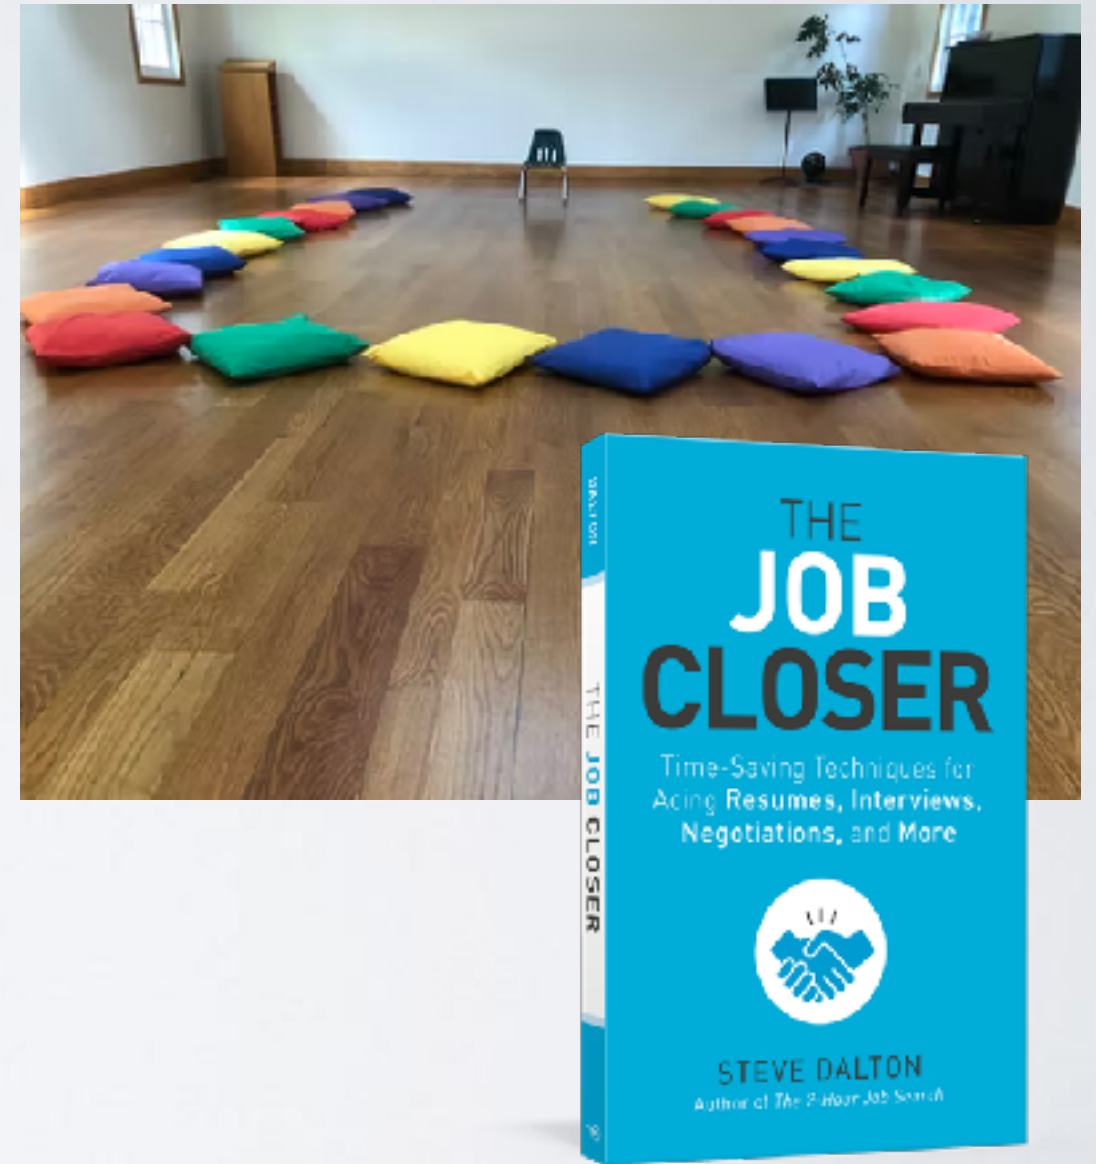

**Use TMAY to carry the energy & likability from small talk
into Q&A**

TMAY SERVES A UNIQUE ROLE IN INTERVIEWS

Time (min)	Cumul. % (int'w only)	Primary content covered	For interviewer, answers <i>Does this candidate...</i>
0 to 1	6%	Small talk	<i>...make a good first impression?</i>
1 to 5	38%	TMAY	<i>...have a story that makes sense?</i>
5 to 15	77%	TBD	TBD
Over 15	100%	TBD	TBD

STEP 1: USE STORY STRUCTURE

- Bower & Clark found that facts woven into stories are 6-7x more memorable
 - **Causation** is the critical additional ingredient
- Recommended solution: FIT
 - Favorite part - Insight gained - Transition made

FIT FOCUSES ON YOUR WHYS, NOT WHATS

- FIT turns TMAY into a simple fill-in-the-blank exercise
 - F = My **Favorite** part of <job> was _____
 - I = But I realized _____ (**Insight**)
 - T = So I _____ (**Transition**)
 - e.g., changed orgs, took promotion, returned to school

Let's practice! (Use your first job after graduation)

HOW DID THAT GO?

HONEST FITS ARE THE BEST FITS

- Pick **one** Favorite per FIT
 - Don't list, sell, or turn into a robot
- Frame Insights positively
 - TRUE (BAD): "I found chemical engineering tedious and repetitive"
 - TRUE (GOOD): "I wanted a wider variety of projects"
- Most recent FIT works well in group networking

IS THERE ANOTHER WORD I CAN USE FOR “FAVORITE”?

- Only one of these is true — which one?
 - 1) I really enjoy cleaning the toilet
 - 2) I’m passionate about cleaning the toilet
 - 3) My favorite chore is cleaning the toilet
- Would either “enjoyed most” or “really enjoyed” be good alternatives?
 - Superlatives are more interesting, authentic, and concise

CONSIDER OPENERS FOR INTERVIEWTMAYS

- Start wherever you think your “hero’s journey” begins

CONSIDER OPENERS FOR INTERVIEWTMAYS

- Start wherever you think your “hero’s journey” begins
 - “I’m originally from Lagos, and I’ve always loved numbers”
 - “My earliest passion was performance, and that led me to study theater at Carnegie Mellon”
 - “Immediately upon graduation, I found myself in the world of Bay Area tech startups”

“STICK THE LANDING” IN YOUR CLOSING

“STICK THE LANDING” IN YOUR CLOSING

- Final FIT should tease role or milestone you’re seeking next
 - F = “My favorite part of being a consultant was building rapport with my client teams...”
 - I = “...but I wanted to have a more consistent ‘home team’ I could work with over a longer time...”
 - T = “...so I returned to school in order to pursue a career in marketing”

I want a certain question next. Which one?

TMAY - IN CLOSING

- Use FIT to help interviewer get to know you through your career decisions
- Easiest way to maintain energy is to share information that is genuinely meaningful to you (i.e., your “whys”)
- FIT helps you tell a *true* story well

PART III: WHY QUESTIONS

TMAY + WHY? QS = “THE BIG 4”

Time (min)	Cumul. % (int'w only)	Primary content covered	For interviewer, answers <i>Does this candidate...</i>
0 to 1	6%	Small talk	<i>...make a good first impression?</i>
1 to 5	38%	TMAY	<i>...have a story that makes sense?</i>
5 to 15	77%	Why role / org / sector?	<i>...understand this transaction from both their side and ours?</i>
Over 15	100%	TBD	TBD

IS “YOU ARE THE MARKET LEADER” A GOOD ANSWER?

“Why do you want our org?” AND “Why should are org want you?” should both be covered in “Why our org?” answers

USING RAC ENSURES YOU COVER BOTH PARTS

Reason	Your main point
Anecdote	A genuine, personal story supporting your reasons
Connection	Benefit to the employer (if not readily apparent)

Let's practice! (Use your most recent job)

EXAMPLE: WHY DARLINGTON?

- I have three main reasons. The first is my lifelong passion for home electronics. (**Reason**)
- I got the Darlington SuperPro gaming system in grade school, which got me interested in electronics early. I started reading industry blogs, debating new electronics' merits with friends, and even listening on investor calls! (**Anecdote**)
- I think my history of following home electronics trends and discussing them with fellow fanatics would help me effectively communicate with not just consumers, but also the engineers who design Darlington's products and the sales teams who take them to market (**Connection**)

RAC WORKS FOR COVER LETTERS, TOO!

- “Why should we interview you?” Instead of “Why do you want this job/org?”

Problem solving: I received two promotions in three years — the fastest rate possible at BiffCo — for my ability to break complicated equipment issues into solvable tasks. My ability in this area would help me keep major projects like product redesigns and packaging changes running smoothly and on time at Darlington. (50 words)

WHY QUESTIONS - IN CLOSING

- There are no “right” Reasons
- Substantiate Reasons with a personal Anecdote to ensure next candidate can't use the same exact answer
- Offer Connection so employers know *you* know what you're getting into

SUMMARY

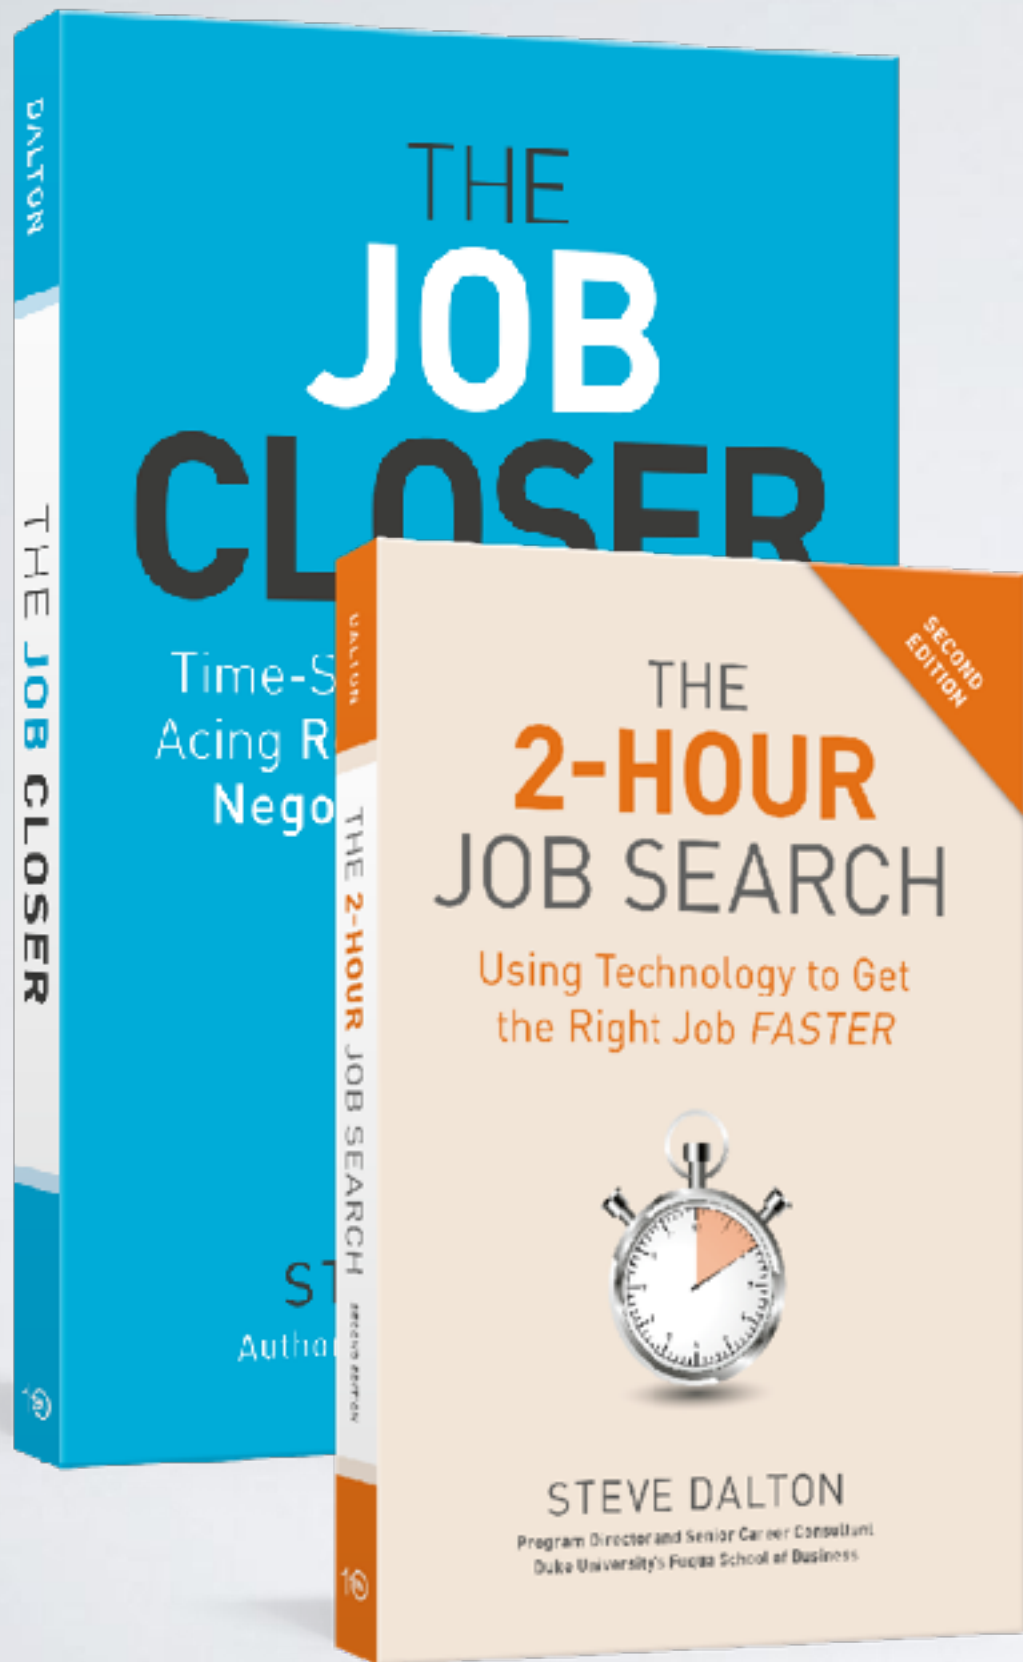

LEARNING OBJECTIVES

- Create a LAMP list
- Answer “tell me about yourself” effectively
- Answer “why this organization / role / sector?” effectively

IMPLEMENTING 2HJS RECAP

1. **LAMP:** Focus on learning; get job leads
2. **TMAY:** Don't sell yourself; tell a true story well
3. **Why? Qs:** Explicitly state how company may benefit
4. **Overall:** Are recipes better than tips for job search?

YOU
